14th May 2016

Dear Resident,

You may have received a letter and survey from Midlands Rural Housing. The Parish Council would like to point out it has not been written by us, nor did they consult with us over its contents and we have many concerns over the content and information being requested. Discussions we have had with Midlands Rural Housing in the last week have only increased our concerns.

Whilst writing the Neighbourhood Plan our own survey was conducted with around 800 households returning them.

We are concerned that they have not provided a data protection policy for the information they have requested from you, especially the amount of savings you have, and the names and ages of your children. We are also concerned that their 'private client' as mentioned in the letter will submit a planning application that goes against the contents of our Neighbourhood Plan, i.e. in an area of the village you have already told us you don't want to see development.

We would strongly recommend you do not complete the survey at this time.

Yours sincerely,

Jane Bucknall
Clerk and Responsible Financial Officer
